## the Bambino™ Plus

The Bambino™ Plus doesn't compromise on the 4 key elements of café quality coffee. Delivering barista-quality performance using a 54mm portafilter with 19 grams for full flavour and automatic milk texturing. With a 3 second heat up time and precise espresso extraction, you go from bean to cup, faster than ever before. Just like your local café.

**Automatic Microfoam Milk Texturing:** The automatic steam wand allows you to adjust the milk temperature and texture to suit your taste. Delivering barista quality micro-foam that enhances the flavour of the coffee and is essential for creating latté art.

**Faster Heat Up Time:** Innovative ThermoJet® heating system achieves the optimum extraction temperature in 3 seconds. Ready to make your best coffee without the wait.

**19 Grams Dose For Full Flavour:** Achieve a consistent and balanced espresso using the right amount of ground coffee. The 54mm porta-filter with 19 grams is the key for full flavour and café quality coffee.

**Low pressure pre-infusion:** Low pressure pre-infusion gradually increases pressure at the start and helps ensure all the flavours are drawn out evenly during the extraction for a balanced tasting cup.

**Precise Espresso Extraction:** Digital Temperature Control (PID) delivers water at precisely the right temperature, ensuring optimal espresso extraction.

**Auto purge:** Automatically purging the heat system after steaming ensures your next espresso is extracted at the right temperature.
